

ACE Group

300 TPD Semolina Ocrim Mill Refurbished and Same as New

CLEANING SECTION:

N° 04 Motorized dosers

N° 01 Vibro separators Ocrim mod. SPR12/N

N° 01 Densimetric calibration air channel (tarara) Ocrim mod. TRC 125

N° 02 Destoner Ocrim mod. TSV 15 produzione 10 T/H (reconditioned and newly painted)

N° 01 Double TRIEUR batteries 700 X 3000 - 4 cilindres and 2 revises

N° 02 Wheat brush Buhler 300x1500

N° 02 Verticale air channel (tarara) Ocrim mod. TRV

N° 01 Wheat dampening control Ocrim mod. GCB in stainless steel Production 20 T/H

N° 01 Low pression filter Ocrim mod. FKC with 72 sleeves sizes

125 x 2500 high complet of electronic sequencer for blowing compressed air,

Conical bottom complete with drain valve 280 mm diameter Motorized and complete with discharge hopper

N° 01 Ventilator Ferrari 30 KW 4 poles direct transmission complete with anti-vibration basement

ACE Group

MILLING SECTION:

N° 17 ROLLER MILL Ocrim mod. LAM 1250 x 250 mm complete with 17 wooden boards for roller mill support

N° 34 Unloading hoppers

N° 03 Plansichter Ocrim 8 CHANNELS mod. BQG 830, complete with iron boards and discharge doors, upper shelves for attaching fabric sleeves

N° 17 Purifier Ocrim mod. SD 500 with triple row of sieves (new aluminum sieves) & motovibrators

N° 02 Double diameter Screw conveyors diameter 250 mm x 14/16 mt length Motorized

N° 01 Screw conveyors diameter 250 mm x 16 mt length Motorized

PURIFIER ASPIRATIONS:

N° 02 Filter Ocrim mod. FKC a low-pressure 96 sleeve size 1250 x 2500 Motorized rake floor rpm 14/16 min, complete with electronic sequencer for blowing compressed air and with 280 mm diameter motorized discharge valve with discharge hopper

N° 01 Fan Ferrari 30 KW 4 poles complete with Ant vibration base, belt transmission and protective casing

PNEUMATIC:

N° 40 pneumatic lifts composed of:

N° 40 motorized AIR LOCK valves supported by pallets (4 for each pallet with central motor)

N° 40 unloading hoppers under the air lock valves (new painted)

ACE Group

N° 40 cyclones complete with air regulation valve

N° 01 Ocrim filter Low-pressure mod. FKC with 96 sleeves size 1250 x 2500
Motorized rake floor rpm 14/16 min complete with electronic sequencer for blowing compressed air with motorized valve 280 mm diameter and with unloading hopper

N° 01 Ferrari -160 KW 2-pole turbofan complete with base, direct coupling transmission anti-vibration

N° 30 Deviation valves to be mounted on the screw conveyors, diameter 120, 2 and 3 ways

N° 500 mixed sectors diameter 120 to 22 and 30 degrees

N° 100 inspection doors diameter 120

N° 100 Mixed bifurcations diameter 120 to 45 and 55 degrees

N° 200 mixed elbows diameter 120 to 30 and 45 degrees

Pipeline piping is excluded
